Masonic Origins. This Article is an excerpt from "En Route to Global Occupation" by Gary H. Kah, published by Huntington House. This important book deserves a place in your library.

LAMP instrument sheds light on lunar water movement: Moon ...

There are four basic types of eye movements: saccades, smooth pursuit movements, vergence movements, and vestibulo-ocular movements. The functions of each type of eye movement are introduced here; in subsequent sections, the neural circuitry responsible for three of these types of movements is presented in more detail (see Chapters 14 and 19 for further discussion of neural circuitry ...
